New (2d) Edition

Graves' Gynecology

491 Illustrations
100 in Colors

For this edition Dr. Graves has given his book a thorough revision and brought it completely up to date. New matter has been added to the extent of 115 pages, and 66 additional illustrations included. The illustrations in this work form a feature. There are 491 of them, 100 in colors—microscopic, gross pathologic, and operative technic step by step.

The section on the relationship of gynecology to internal secretions has been re-written and considerably amplified. Much new matter has been added under ovarian organotherapy and ovarian transplantation, the radium treatment of cancer, radium therapy in non-malignant gynecologic diseases. A new section discusses the relationship of gynecology to the sex impulse, based chiefly on the theories of Freud regarding infant sexuality. A number of new operations are described and illustrated, most of which have not before appeared in text-books. Dr. Graves' work has always been noted for its lucid and forceful text, its broad conception, and the wealth and instructive nature of its illustrations.

PRODUCERS DO NOT SELECT US. WE SELECT THE PRODUCER WHOSE PRODUCTS WE DISTRIBUTE. AND WE USE SOME LITTLE DISCRIMINATION IN THE PREMISES. WE ARE AGENTS FOR NO ONE. WE ARE PAID BY NO ONE. WE ARE UNDER OBLIGATIONS TO NO ONE. WE HAVE MONOPOLY ON NOTHING EXCEPT OUR ABILITY TO RENDER SUPERIOR SERVICE. WE EMPLOY NO DETAIL MEN. WE NEED NONE. PHYSICIANS COME TO US WHEN IN NEED OF RELIABLE INFORMATION AND WE IMPART WHAT WE HAVE WITHOUT FEAR OR FAVOR. WE ARE IMPROVING ALL THE TIME. THROUGH OUR OWN INITIATIVE AND PUBLICITY CAMPAIGNS WE HAVE RENDERED THE MEDICAL PROFESSION AND INDIRECTLY THE PUBLIC INCALCULABLE SERVICE. AND OUR REWARD IS THAT WE GET EVERYTHING WE WANT AND ALL WHO KNOW US ARE GLAD TO HELP US. AND EACH DAY AS WE CLOSE UP SHOP WE KNOW OUR WORK HAS BEEN WELL DONE.
